

# EasyCALL for Puerto Rico

## The standard software for reporting to the Office of the Commissioner of Financial Institutions

DBI Financial Systems has provided software for preparing the Quarterly Report to the Office of the Commissioner of Financial Institutions, Government of Puerto Rico since 1995.

**DBI developed the first software** for preparing and submitting the Quarterly Report to the OCFI. When the OCFI wanted to develop a system for collecting and storing quarterly report data submitted by supervised institutions in Puerto Rico, they contacted DBI for assistance. Our experience providing similar reporting software to U.S. banks made DBI uniquely qualified to help.

**DBI also developed the first system** for receiving, validating and processing your reports. DBI has continuously provided this system to the OCFI since 1995.

**Software is available** for all Banking, Non-Depository, Securities Brokerage, and other Institutions.

The screenshot displays the EasyCALL-PR software interface. The title bar shows 'EasyCALL-PR', 'MPO0000 Prueba la Computa', and the date 'December 31, 2000'. The menu bar includes 'File', 'View', and 'Help'. A toolbar contains icons for file operations and help. The main window displays a report form for 'Nondpository Institutions' with the following details:

- Report Date: December 31, 2000
- Institution: 14400000 - Prueba la Computa
- Address: 123 Street Address, Mayaguez, PR 00601
- Commonwealth of Puerto Rico - Commissioner of Financial Institutions
- Report of Condition

The form includes a table for reporting assets and liabilities, with columns for 'Account' and '(1,000)'. The 'ASSETS' section includes items such as 'Cash in hand and banks', 'Loans and Leases Financing/Receivables', and 'Other Current Assets'. The 'LIABILITIES' section includes 'Accounts Payable and Accrued Liabilities', 'Loans Payable', and 'Mortgages Payable - Current'.
